

Experience the power of reliability with DEFA's Workshop and Showroom chargers.

Workshop Charger 35a

Part number: 712220

- Compact Design: 227 x 125 x 62 mm
- User Friendliness - charging cable with hook, holder, and intuitive interface and display
- Optimal charging - can be used in both charging and power supply mode
- Silent operation
- Safe - Reverse-polarity and short-circuit protection.
- Flexibility - Detachable cables for easy connection/disconnection and suspension options
- Durability - housed in heavy-duty materials and has an IP40 rating.

Workshop Charger 50a

Part number: 714490

- Compact Design: 280 x 175 x 85 mm
- User Friendliness - charging cable with hook, holder, and intuitive interface and display
- Optimal charging - can be used in both charging and power supply mode
- Silent operation
- Safe - Reverse-polarity and short-circuit protection.
- Flexibility - Detachable cables for easy connection/disconnection and suspension options
- Durability - housed in heavy-duty materials and has an IP5K3 rating.

Workshop Charger 125a

Part number: 714590

- Compact Design: 373 x 206 x 104 mm
- User Friendliness - charging cable with hook, holder, and intuitive interface and display
- Optimal charging - can be used in both charging and power supply mode
- Silent operation
- Safe - Reverse-polarity and short-circuit protection.
- Flexibility - Detachable cables for easy connection/disconnection and suspension options
- Durability - housed in heavy-duty materials and has an IP20 rating.

DEFA offers versatile and efficient workshop and showroom chargers that will keep your operations powered and running smoothly.

The workshop charger is compatible with all types of automotive batteries, while the ShowroomCharger discreetly keeps your showroom vehicles charged. Trust DEFA for reliable and effective charging solutions.

Showroom Charger 32a

Part number: 712210

Part Part number: 712400 (Mercedes Special Clamp)

- Handy one-button solution and intuitive display
- Very High efficiency – 95%
- Compact design: 227 x 121 x 62mm
- Optimal charging – 7 step charging curve
- Upgradeable software via separate ISD port
- Discreet design – black anodized aluminium
- Discreet placement – detachable cables you can run through the engine compartment
- No noise – no fan
- Safe – spark and short circuit proof
- Rubber feet and corners are available
